FRIDAY, Oct. 9, 1864.

DEMOCRATIC STATE TICKET.

SUGGESTED TICKET.
WALTER J. WOODWARD, of Bucks
Lieutenant GOVERNOR,
JOHN LATTA, of Westmoreland co.
AUDITOR GENERAL,
JUSTUS F. TEMPLE, of Greene co.
SECRETARY OF INTERNAL AFFAIRS,
Gen. WM. McCANDLESS, of Phila.
DEMOCRATIC NOMINEES.

PRESIDENT JUDGE,
Hon. WM. McCLEAN, of Gettysburg,
CONGRESS,
Col. LEVI MATHIS, of York County,
SENATOR,
Col. JAS. CHESTNUT, Cumberland co.
ASSEMBLY,
EDWARD W. STAHL, Franklin twp.,
DANIEL GEISELMAN, Union twp.,
PROTHONOTARY,
THOS. G. NEELY, Huntingdon twp.,
DEPUTY ATTORNEY,
J. CASSATT NEELY, of Gettysburg,
COUNTY COMMISSIONER,
HENRY W. SCHWARTZ, Mountjoy,
DIRECTOR OF THE POOR,
GEORGE GUNN, of Tyrone township,
JOHN G. BRUNCKERHOFF, Strabane,
COUNTY SURVEYOR,
FRANKLIN H. EBERT, Tyrone twp.,

DEMOCRATIC MEETINGS!

Col. LEVI MATHIS, the Democratic nominee for Congress, and others, will address the people of HAMILTON, on FRIDAY EVENING, Oct. 24th, and at BONNIE GROVE, on SATURDAY, DAY EVENING, Oct. 25th, RALEIGH RALLY!

Otto, Indiana, Iowa, Nebraska, Arkansas and West Virginia will vote next Tuesday.

The elections in Connecticut and Delaware, for inspectors and assessors, have gone largely for the Democrats.

The municipal election in Corinth, Miss., has been carried by the Conservatives for the first time in eight years.

HENRY CLEWS & Co., bankers, New York, have suspended. Failures of commercial houses are also reported. The times are out of joint—and Radicalism rules.

We have heard a gossiping rumor that when, not long ago, Secretary Fish was asked for the general policy of the administration of which he is a part, his reply was: "We have no policy, We drift."

DEMOCRATS, BE ALERT!—The Radical leaders hope to make something by a system of "trading," and will not hesitate to buy votes. Watch them, day and night!

ANOTHER VICTORY!—The election in Georgia, on Tuesday, resulted in a sweeping Democratic victory. The Radicals have probably elected fifteen members of the Legislature, and the Democrats over two hundred!

Coy. KELLOGG's second check book has been discovered, and shows the payment of \$200 to Caleb Cushing and Senator Carpenter for legal advice; also, liberal sums for the maintenance of the state militia and for political purposes.

It is now reported that even the President himself does not consider either Kellogg or McElroy the lawfully elected Governor of Louisiana, and that in his next message to Congress he will recommend that provision be made for a free and fair election at the earliest possible day.

THE ADDRESS of the Democratic State Central Committee will be found on the first page. It is one of the most cogent, exhaustive and forcible papers that has ever marked the beginning of a campaign. It places the Radical party on its trial, to be condemned by the people for its many crimes. Read the address.

We must again remind our Democratic readers of their duty at the coming election, to take place November 3d. A President Judge is, for the first time, to be elected by Adams county. Hon. William McClean, the Democratic nominee, has every qualification—a sound lawyer, of long and large practice, and of the most rigid probity in all things.

Further, a Congressman is also to be chosen this year, a State Senator, two Assemblmen, a Prothonotary, District Attorney, Commissioner, Director, Auditor and Surveyor, all important in their bearing, as well as a State Senator, and every other with an unexceptionable Democratic candidate for it. It is, therefore, the duty of Democrats to prepare for the day of action, and be on the ground in good time, and all day, throwing solid shot into the ranks of the enemy. This week will done will insure us a glorious victory.

The Democrats of Perry county have nominated Dr. George N. Beale for Assembly. His Radical opponent is J. H. Sedley, member of the last House. The nomination of Dr. Beale is an excellent one, with many of his friends endorsed by the people of Perry county at the polls. The tenth resolution, and the Civil Rights Bill have but few supporters among the conservative people of Perry, who are in a majority, and a State Senator who will sustain such inquiries.—Patriot.

And we ask the voters of Adams to take this matter into serious consideration. Every vote, cast for Cyrus G. Beale or Michael Kelly will be taken as an endorsement of the civil-rights mixed-schools platform of the Republican party. All opposed to this will find candidates to suit them in Edward W. Stahl and Daniel Geiselman—both men of the people, and who can be relied upon to act solely in the interest of the people.

A DEAD CUCK.—We have it from very good authority that the Radicals of this county have about arrived at the conclusion that Suller is a dead duck in the pit; in other words they feel that his defeat is a fixed fact.

This being their conviction, they are trying to make a stand on Senator, and with this object in view, their six papers are blowing like brandy. But the Doctor, like Suller, don't appear to take. In the first place he is unimportant; and more than this he is not fit for the position of Senator. Colonel Chestnut will walk over the course like a "war horse."—Carthick Volunteer.

The Republicans of York county do not seem to take kindly to the nomination of Capt. Hirsh McVale for Congress; in fact, one wing of the party threatens to bolt and support Mr. McCouley, who denies that he resigned. A communication in the "True Democrat," (Hiram Young's paper), explains the situation thus:

YORK, Oct. 1st, 1864.
Mr. EBBOTT.—I was something surprised at the non-nomination in one of the issues of the "True Democrat" of this week of the nomination of H. S. McVale for Congress by the Republican conference of York, Adams and Cumberland counties. During the session of the County Convention in York, one of Mr. McCouley's admirers nominated him as a candidate for Congress, when he immediately rose to his feet and said that he did not want the nomination and insisted upon withdrawal. The two only two candidates named before the Convention were Dr. C. H. Bressler, The one selected by the Convention should have supported Mr. McCouley, and if he had done so, he would have been in a position to do so, but they were in favor of the nomination of Mr. McCouley, which will be the name of the second choice of the convention.—Dr. C. H. Bressler—and not one who would not have the honor thrust upon him. Mr. McCouley is not mentioned in any of the issues of York County as expressed in the York Republican delegates to the County Convention. I have no doubt it was brought about by political trickery. It is evident that Mr. McCouley was so anxious to make his name in the confederacy which contained the names of those confederates who were instrumental in igniting their constituents' will.

Great is the temptation we shall not accept the challenge here offered to compare the record of General McCouley with that of the heroes who figure on the Republican state ticket. Their bold friends at least will appreciate our forbearance in this respect. In order to renew General McCouley it is found necessary in the paragraph which we quote to deprecate the whole gallant corps of which he was so distinguished a member. General McCouley entered the service as major of the Second Regiment of the Pennsylvania Reserves and was in command of one of its brigades when the corps was mustered out at the close of its third year term of enlistment. In the marches, bivouacs and battles of that gallant corps in the Peninsula, in the Gettysburg campaign, and in the conflicts of the Wilderness, General McCouley bore his full share. No body of Pennsylvanian troops participated in more bloody conflicts or performed such courageous service in front of the enemy.

"McKony should have named his confederates?"
"But McNaught named his own in the Resolutions?"
"McNaught's Game was then easy and he was nominated on the First Ballot?"
"The time of the Conference Meeting will be secret in York County?"
"But other Counties had no Candidates?"
"McConkey personally denied having declined, and says he was not informed when the Conference would meet?"
"McNaught captured the Nomination in York, and carries the Nominating of York County, and is subject to the will of his friends who will put him in nomination?"

McConkey personally denies having declined, and says he was not informed when the Conference would meet?"
"McNaught captured the Nomination in York, and carries the Nominating of York County, and is subject to the will of his friends who will put him in nomination?"

McConkey personally denies having declined, and says he was not informed when the Conference would meet?"

RECORD OF GEN. McCANDLESS.

If the present campaign has not been conducted with the spirit and energy that have characterized former political contests in Pennsylvania, it has not been wanting in personal abuse and depreciation of the services and character of Democratic candidates. In this work of detection the Harrisburg "Telegraph" is the most skillful, takes the lead, but we cheerfully acknowledge that its stupid personal attacks have not with an encroachment in the critical portion of the Republican newspaper press. Among those who have been snubbed as special objects of personal attack is Gen. Wm. McCandlell, the Democratic candidate for Congress in York county. The "Harrisburg Telegraph" (Hiram Young's paper), explains the situation thus:

YORK, Oct. 1st, 1864.
Mr. EBBOTT.—I was something surprised at the non-nomination in one of the issues of the "True Democrat" of this week of the nomination of H. S. McVale for Congress; in fact, one wing of the party threatens to bolt and support Mr. McCouley, who denies that he resigned. A communication in the "True Democrat," (Hiram Young's paper), explains the situation thus:

FARM AND GARDEN.

VARIETIES OF WHEAT.

The Breeding Times has been shown by Cyrus T. Fox, Secretary of the Berks County Agricultural and Horticultural Society, sixteen different samples of fine varieties of wheat contained in separate bottles, neatly labeled. The following is a list of the varieties, with the yield of each in bushels to the acre, and the distinctive peculiarities of each:

Timberland Red, red, bearded	25	12
Schoemaker, red, smooth	22	12
Arnold No. 9, white, smooth	21	12
Wexell, White, white, bearded	21	8
Jennings, White, bearded	23	8
Old White Chaff, Mediterranean	34	8
McKee, white, smooth	31	8
James, white, smooth	22	8
166, red, bearded	31	6
Rough and Ready, red, smooth	35	6
Brittany, red, bearded	37	41
Folz, amber, smooth, from B. L. Lamm	38	40
Folz, from Michael Kehler, Lancaster County	38	41
Farm...	42	

Clawson White Winter, a new variety, from the Department of Agriculture, Washington, D. C.

Egyptian Wheat, from A. Holzworth, Lancaster County.

It will be observed that the Folz wheat is credited with the largest yield to the acre, there being samples from three different farms, on each of which the yield was from 30 to 42 bushels to the acre. The Egyptian wheat is a new variety, which is being sold at the rate of \$1.00 per hundred grains, the entire stock in this country being in the hands of one man. The Clawson White Winter is an exceedingly fine variety of white wheat, which the Department of Agriculture is desirous of introducing. The other varieties in the list were all grown on the Experimental Farm at West Grove, Chester County, by John L. Carter, Superintendent, by whom they were exhibited at our late County Fair. The yield to the acre was obtained from careful measurements made, and the above is a correct record of the comparative productiveness of the different varieties enumerated in the list.

HOW TO HAVE GOOD CIDER.

Prof. Ulford, of Harvard University, has published a receipt for improving and preserving cider, by means of which the progress of the riper and acetic fermentations may be arrested at pleasure, and the cider preserved in just such a state as may be desired. It is this:

"Put the new cider into clean casks or barrels, and allow it to ferment from one to three weeks, according as the weather is cool or warm. When it has attained to lively fermentation add to each gallon three-quarters of a pound of white sugar, and let the whole ferment again until it possesses nearly the brisk pleasant taste which it is desirable should be permanent. Pour out a quart of the cider and mix with it one quarter of an ounce of sulphite of lime for every gallon the cask contains. Stir it until it is thoroughly mixed, and pour the emulsion into the liquid. Agitate the contents of the cask thoroughly for a few moments, then let it rest that the cider may settle. Fermentation will be arrested at once, and will not be resumed. It may be bottled in the course of a few weeks, or it may be allowed to remain in the cask and used on draught. If bottled, it will become a sparkling cider of surpassing excellence."

Professor Ulford was the first to use the sulphite of lime for this purpose, and to him is due the credit of first calling attention to its usefulness. It is in no respect deleterious as the sulphate, into which the sulphite is changed by the liberation of sulphuric acid, is entirely insoluble, and remains at the bottom of the vessel. Remember, it is the sulphite of lime not sulphate, must be used.

The quality of the cider will remain unchanged for years.

PYRAMIDAL PEAR TREES.—We well remember, many years ago, visiting the great collection of specimen pear trees on the grounds of Horace & Co., of Boston, Mass. These pear trees were much superior in vigor and beauty to the trees on quince; but Mr. Horace states, in a late number of the "Gardener's Monthly," that these pear pyramids never bore well while trained in this way, although they endured long after the quince pyramids had their day and perished. The pinching and pruning was likewise very laborious and expensive. So they were "not alone," "away they went," says Mr. H., "but, as ready as us by a bird hopped from his cage, and their long branches had become of scarcely more than a year's growth before they were actually weighed down with fruit. We had a little less symmetry, but a deal more of satisfaction. Our first real crop was in 1862, since which it has constantly increased, and in 1873 measured 2,200 bushels, The trees are now about 30 years old.

SMALL OF LARGE COBS.—It is working the wrong way to attempt to reduce the size of the cob in field corn. If the cob could be reduced in size to one inch in diameter by selection of seed for a series of years, the product of the crop must certainly be reduced at the same time. A cob two inches in diameter is double the space to be filled with grain, the one half that size has. The effort should be to enlarge the size of the cob in thickness and length, and to increase the length and number of the grains at the same time. There is no doubt that much may be done in this way by selecting for seed those ears which are the largest number of rows and the greatest length and planting the seed remote from other ears.

THE HOUSEKEEPER.

KEEPING BUTTER FRESH.—The best way to keep butter that is prime is to exclude the air from it and put it in a cool, sweet place; but the first is the most important. If the butter is in a tub, tub, or jar, cover it over so that it will not keep perfect for twenty-four hours. Butter for the family should be kept constantly under butine, —Ice Stock Journal.

CARAGE SALAD.—Shave a hard white cabbage into small strips; take the yolks of three well-boiled eggs, a cup and a half of good white vinegar, two teaspoonsfuls of white sugar, three table-spoonsfuls of thick cream, one tea-spoonful of mustard mixed, in a little boiling water; salt and pepper to taste. Mix all but the eggs together, and let it boil; then eggs together, and rapidly turn the cabbage into the mixture, and stir well. You can, perhaps, keep perfectly for two days at once, as it keeps all kinds of meat.
